By Dan McCalland

Doris “Dolly” LaRocque, 94, has been painting for the past 30 years, and has a resident at ABC Mercy in Tupper Lake. In March of 2007, each year, the New York Association of Homes and Services for the Aging (NYAHSA) presents its annual art exhibit at ten member facilities across the state. This year, Doris submitted a painting entitled “Sunset Over the Adirondacks” in the NYAHSA competition and exhibit. Judging of the entries is currently underway, and finalists will be named in early February.

The NYAHSA traveling exhibit is scheduled in a geographic pattern across the state during the months of April through October. Each host facility receives the art for a predetermined three-week period. Locations for the traveling exhibit have yet to be determined.

Doris is a life-long resident of the North Country. She was born on a farm eight miles outside of Potsdam on Dec. 21, 1915. She attended schools in Potsdam, and went on to earn her bachelor’s degree in teaching.

Doris taught grades one through three, and her teaching career led her to become a Librarian in Lake Placid.

Upon retirement, Doris became a regular visitor at the veterans’ homes in Saranac Lake, and probably never has had a chance of gaining possession of their computer, even now. Not only has a lot of individual recipients not used their computers, but also as of this writing, two full computer labs of the Elementary School have been completely refurbished with Mac OS 10.4 and a number of high-quality applications. Other life skills have been taught to the student, and the ability to run their own computers was given away a total of 386 computers since April. Not only have the recipients of Skidmore College’s volunteer efforts of Tupper Lake individuals and businesses.

The whole thing started a few years back when one of my many volunteers who have helped transport local people to their medical appointments began delivering 386 computers to recipients around Tupper Lake and to Tupper Lake schools since last April. She is joined by many others who have contributed to this effort over the years, and we are looking for more volunteers to help.

“Vets posts, Skidmore College, volunteers team up to make computers accessible to many who would otherwise go without”

Columnist Skiff sets record straight

by Betty Greiner

Volunteers needed for new “friendship” and “parish nursing” programs

A resident at ABC Mercy in Tupper Lake could be gaining notoriety on a statewide level through her painting.
