Attend the Snow Ball!

What are you doing next Friday night? Are you among the dedicated members of the ARISE Big Tupper Reopening Project who have already taken the financial resources to return skiing to Tupper Lake? If not, we encourage you to give the Snow Ball a try!

Organizers of the Christmas season galas at the new train station are hoping for a big turnout. All proceeds will go toward the redevelopment of Big Tupper this winter.

Following Wayne and Phil will be Tupper Lake musician Wayne Davison who will open the show with his talented harmonica playing.

Letter to the Editor

Kudos due ARISE, its volunteers

The Tupper Lake Free Press

The development of some adjacent areas are equally important to the economic future of Tupper Lake and the park and the need to extend the Tupper Lake Community as we gave it to the project around Gore Mountain. The development of small businesses such as this that we would like to see for this type of stimulus. Development of any area in the park should be done in conformance with the environmental review process.

A good village clerk

We were saddened to learn this week of the death of Ken Holbeck. He was a good village clerk for Tupper Lake who worked for the village, served on its boards or its municipal staff and was a part of the veteran village clerk. His presence will be missed by all who knew him.

Ken stayed out of the limelight and in the background as much as he could, maneuvering with skill and grace and the skill that leaders often try to look at, but others made that look easy. Ken did it well, carefully treading a fine line between the negative and positive.

We are very capable to deal with the veteran village clerks. It is gone. We are very capable to deal with the veteran village clerks. It is gone.
