If I was a snowflake I would fly fast and fall flat. Faster and lower than you can see. My friends will all follow me wherever I go. And when I hit the earth or in the air I would make the snow because you don’t need for a snow fall. Winter is the whole time in the world while in the summers. Then you go to bed. Then you would wake up in the morning.

Brenna McCumber- grade 4

If I was a snowflake I would land where there are no buildings or people I would onlychoice to be a snowflake because it flies a thousand miles. I would love it if they would play in the snow because I like to have a snowman and I would be in the snow. I would love to play in the snow because I have a snowman every year.

Raquette River Finger Lakes.

If I was a snowflake I would be able to fly and land different places. I would love to be a snowman. I would also love to be a snowman because if it snows I would bring the snowman to my house and I would make the snowman. I would also love to have a snowman.
