

Leon LeBlanc for Village Trustee

(Editor's note: the Free Press will not be interviewing candidates for village trustee, as they are running unopposed. Leon LeBlanc is running for another two-year term on the village board and sent in the following statement.)

In my eight years as village trustee, we have never raised taxes. We have never had any layoffs.

I have always been 100% in favor of the

ACR project. I believe it will promote tourism and growth in our community.

I believe the Unit Management Plan should be reopened and reviewed by DEC and DOT. This would give us a better view on what direction to go. Then I will support whatever brings economic development to our community.

The fire and police departments need a new building. I support that.

My heart tells me we are spending more of the taxpayers' money than we should have. We should have stayed with Plan A.

I was born and raised in Tupper Lake. I am a US Marine Corps veteran, having served from 1968-

1970.

I wear a number of hats in the community. I have been Commander of VFW Post #3120 for 13 years and Commandant of the Adirondack Leathernecks Marine Corps League for seven years. I am a

member of the American Legion, the VFW St. Lawrence County Council, and VFW District 4. I am an aide-de-camp for the National Commander and a past chief of the Tupper Lake Fire Department.

I am married to Mary and we have two children, Bridgette and Leon, Jr., and four grandchildren.

To everyone in the Village of Tupper Lake, Town of Tupper Lake and Town of Santa Clara:

I am once again asking for your vote as we continue to work together to make Tupper Lake and Santa Clara a better place to live, work and both raise and maintain our families.

Although I am unopposed for both the office of Mayor of the Village of Tupper Lake and County Legislator from District #6 (Tupper Lake/Santa Clara), I am asking each and every one of you for your vote.

WHY?

1. I want to work together with you for all of us.
2. I understand the job and enjoy the work of each office and together we have many projects ongoing.

- The Adirondack Club and Resort must become a reality for private sector jobs, stability in Tupper Lake, and advancing Tupper Lake's identity.

- The Municipal Park is advancing beautifully- Little Logger Playground, The Municipal Ball Field with new lighting and continued development of the total Raquette Pond Experience. (The jewel of our community).

- The advancement of a new emergency service building, our firemen and police officers deserve it.

- Continuity of Sunmount employment and possible private sector expansion on the campus.

- The new Town Hall complex in Santa Clara.

TOGETHER: We can make all of these a reality. We won't always agree on all issues, nor should we.

TOGETHER: We can make Tupper Lake a destination on the North Country map.

- We can promote new jobs, hold onto old ones, increase tourism and help Tupper Lake prosper.

I want to work with everyone, from all political persuasions to make Tupper Lake and the area a better place for all!

Thank you all for your continued support.

Best Regards,
Paul A. Maroun
Mayor of the Village of Tupper Lake
Franklin County Legislator
District #6 Tupper Lake/Santa Clara
